

## Overview

## Product information

**DT22M-FR11/RD-31010000081**

φ22mm Momentary Flat, Color: red, Contact Type: one normally open and one normally closed

## Product advantages

- Self-locking connection without fasteners
- Strong impact resistance and vibration resistance
- Efficient and convenient disassembly, suitable for a variety of occasions

## Product certification

## Technical data

## Product drawing

## 3D model

□

## General parameters

Insulation resistance	≥ 100 MΩ
-----------------------	----------

## Technical specification

Environment humidity	45-85%RH
Vibration resistant	1.0mm/50HZ
Mechanical life	≥ 2 million times
Electrical life	≥ 200,000 times
Nominal insulation voltage	660V
Conventional heating current	10A

## Environmental data

Ambient temperature (operation)

-25 °C ... 55 °C
