

## Overview

## Product information

**DT22MU-S2R/BL-31010000423**

φ22mm Two-position Selector Switch head, Color: black, Operation type: Self-Resetting

## Product advantages

- The shell is made of zinc alloy metal material, with good wear resistance and room temperature mechanical properties
- Adopt modular design to meet customers' requirements for installation convenience, use flexibility, product durability and so on
- The button head and the middle seat are fixed with screws, which has stronger anti-impact, anti-drop, anti-vibration and other properties

## Product certification

## Technical data

## Product drawing

## 3D model

## Technical parameter

Mechanical life

≥100次

## Technical specification

Power frequency withstand voltage

1890VAC/50Hz/60s

Impact resistance

Button 70g, Mushroom head button 15g, Select switch 200g

Environment humidity

45-85%RH

Vibration resistant

1.0mm/50HZ

Nominal insulation voltage

440V

Conventional heating current

10A

#### Environmental data

Ambient temperature (operation)

-25 °C ... 55 °C

#### Accessories

#### Business data

Order number

31010000423

Packing unit

10

Minimum order quantity

10

Products weight (without packaging)
