

Overview

Product information

DT22MU-S2R/BL-31010000423

φ22mm Two-position Selector Switch head, Color: black, Operation type: Self-Resetting

Product advantages

- ☑ The shell is made of zinc alloy metal material, with good wear resistance and room temperature mechanical properties
- ☑ Adopt modular design to meet customers' requirements for installation convenience, use flexibility, product durability and so on
- ☑ The button head and the middle seat are fixed with screws, which has stronger anti-impact, anti-drop, anti-vibration and other properties

Product certification

Technical data

Product drawing

3D model

□

Technical parameter

Mechanical life

≥100次

Technical specification

Power frequency withstand voltage

1890VAC/50Hz/60s

Impact resistance

Button 70g, Mushroom head button 15g, Select switch 200g

Environment humidity

45-85%RH

Vibration resistant

1.0mm/50HZ

Nominal insulation voltage

440V

Conventional heating current

10A

Environmental data

Ambient temperature (operation)

-25 °C ... 55 °C
