Overview

Product information

DT22MU-SL2R10/BL-31010000408

φ22mm Two-position long handle Selector Switch, Self-Resetting, Color: black, Contact Type: one normally open

Product advantages

☑ The shell is made of zinc alloy metal material, with good wear resistance and room temperature mechanical properties
☑ Adopt modular design to meet customers' requirements for installation convenience, use flexibility, product durability and so on
☑ The button head and the middle seat are fixed with screws, which has stronger anti-impact, anti-drop, anti-vibration and other properties

Product certification

CE

Technical data

Product drawing

3D model

Technical parameter

Mechanical life	≥100次

General parameters

Insulation resistance	≥ 100 MΩ

Technical specification

Power frequency withstand voltage	1890VAC/50Hz/60s
Impact resistance	Button 70g, Mushroom head button 15g, Select switch 200g
Environment humidity	45-85%RH

Vibration resistant	1.0mm/50HZ
Electrical life	≥ 200,000 times
Nominal insulation voltage	440V
Conventional heating current	10A
Contact resistance	≤50mΩ

Environmental data

Ambient temperature (operation)	-25 °C ... 55 °C

Accessories

Business data

Order number	31010000408
Packing unit	10
Minimum order quantity	10
Products weight (without packaging)
