Overview

Product information

EGD-600A-B250-B/S-BK-01-28040000256

Simple high current connector, Rated current: 600A, Rated voltage: 1500V
Applied to high voltage connection of battery systems such as household energy storage, industrial and commercial energy storage, etc.

Product advantages

☑ Can be wired from any of the four directions
☑ Easy to install
☑ Quick maintenance

Product certification

Technical data

Product drawing

3D model

UL Electrical parameters

Rated current	100A

Environmental conditions

Operating ambient temperature (including temperature rise)	-40℃-125℃

Material data

Shell color	Black

Material characteristics

Plating material	Silver plated

Electrical parameters

Rated voltage	1500V
